IN-WATER SURVEY & UNDERWATER WORKS

Founded in 2003, the CDLM has more than fifty full-time employees, among whom port engineers, Class II divers from INPP, CAD technicians, certified welders and mechanics. The high availability and mobility of our teams, as well as our international networking allows us to take actions anywhere in West Africa in a short time.

Our diversified and qualified equipment enable us to bring innovative and high-performance solutions to each of our projects.

Armed with our experience and our network of partners and customers, the CDLM is committed to offer a high-quality service, while making time and budget management a priority.

THE CENTRE DE LA MER (CDLM)
IS A COMPANY OF MARITIME WORKS
WHICH SUPPORTS ITS CLIENTS IN
THE EXECUTION AND MAINTENANCE
OF MARITIMES AND FLUVIAL WORKS.

Thanks to the passion and creativity of our employees, we have been able to extend our field of expertise and are now offering more than 17 port, fluvial and maritime services, adapted to the requirements of our customers.
